A large, semi-transparent dandelion seed head is positioned on the left side of the slide, extending from the bottom towards the top. The background is a solid blue color.

Clean Sky 2

11th Call for Proposals: Practical Aspects

Innovation Takes Off

www.cleansky.eu

Partners: Definition and Role

- Selected via Calls for Proposals (2 to 3 launched per years)
- Short/medium-term commitment;
- Level and quality of resources adequate for the Topic concerned;
- Competences / capabilities necessary to carry out the activities aiming at developing new knowledge, new technologies and solutions contributing to the action;
- The scope and perimeter of activities is defined from the beginning and might be of various type (study, design, simulation, development, manufacturing, integration etc.);
- The activities are limited in time and closely related to the needs as proposed by IADP/ITD Steering Committees and approved for CfP launch by the CS2JU;
- The activity is defined and will be technically lead by the Topic Manager following the technical roadmap/goals of the ITD/IADP

Partner Topic Description within the complementary framework of an ITD/ IADP/TA

The **Topic descriptions**:

- Part of the Work Plan approved by the board of the CS2JU (provides the detailed technical description of each topics)
- Describe the tasks as defined by the Topic Manager (representing a Member of the ITD/ IADP/TA) based on the objectives of the ITD/IADP/TA
- Aligned with the CS2 Joint Technical Programme in support of HLOs of each ITD/IADP/TA (JTP: the strategic vision of the programme)
- Define the nature of the action: **RIA** (Research and Innovation), **IA** (Innovation) or **CSA** (Coordination and Support)

They contain the following :

- **Activities & outputs** as required within the IADP/ITD/TA
- **Indicative topic values** (funding in M€)
- **Capabilities and technology areas** concerned
- **Timeline**
- **Deliverables & Milestones**

Partner Topic Description within the complementary framework of an ITD/ IADP/TA - example

I. JTI-CS2-2019-CfP10-LPA-01-72: Development of a distributed CFD platform for collaborative design

Type of action (RIA/IA/CSA):	IA		
Programme Area:	LPA		
(CS2 JTP 2015) WP Ref.:	WP 1.1		
Indicative Funding Topic Value (in k€):	600		
Topic Leader:	Airbus	Type of Agreement:	Implementation Agreement
Duration of the action (in Months):	36	Indicative Start Date (at the earliest) ⁶ :	> Q1 2020

Topic Identification Code	Title
JTI-CS2-2019-CfP10-LPA-01-72	Development of a distributed CFD platform for collaborative design
Short description	
Development of an open-source CFD simulation platform and methodology to enable co-design between an airframe manufacturer and an engine manufacturer, while maintaining IP and IT security. This includes code-to-code coupling, communication between different simulation platforms, post processing of the simulation, and demonstration on industrial configuration.	

Links to the Clean Sky 2 Programme High-level Objectives ⁷				
This topic is located in the demonstration area:		Advanced Engine/Airframe Architectures		
The outcome of the project will mainly contribute to the following conceptual aircraft/air transport type as presented in the scene setter:		Advanced Long-range Ultra-advanced Long-range Advanced Short/Medium-range Ultra-advanced Short/Medium-range		
With expected impacts related to the Programme high-level objectives:				
Reducing CO ₂ emissions	Reducing NO _x emissions	Reducing Noise emissions	Improving EU Competitiveness	Improving Mobility
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

1. Background

High Performance Electrical Components for Bleed Control studies present significant opportunities of weight reduction and optimized maintenance through the suppression of the need for pressurized fluid for actuation.

With the development of full electrical architectures in order to support the needs of More Electric Aircraft and future Non propulsive Energy Generation system, it is necessary to consider enhanced electrical bleed control valve and inlet guide vane actuators, in terms of reliability (targeted MTBF: 50 000 h), with weight, volume and costs competitive with hydraulic / pneumatic technologies.

The introduction of EMA technology on previous Power On Demand Systems has enabled the demonstration of the feasibility of an electrical actuated bleedflow control, offering electrification of the bleed control function.

2. Scope of work

Tasks		
Ref. No.	Title - Description	Due Date
T2.1	Initial Requirements Capture – define requirements and interfaces through discussion with stakeholders	T0+1
T2.2	Component selection – perform initial performance analyses to enable baseline selection of components to meet the main performance requirements.	T0+3
T2.3	Components architecture definition	T0+6
T2.4	Functional modelling and failure mode analysis (FMEA)	T0+9
T2.5	Module Functional definition	T0+9
T2.6	Supply chain identification and industrialization assessment	T0+10

3. Major Deliverables/ Milestones and schedule (estimate)

*Type: R=Report, D=Data, HW=Hardware

Deliverables			
Ref. No.	Title – Description	Type*	Due Date
D2.1	Preliminary Requirements Specification	R	T0+3
D2.2	Module Architecture Report	R	T0+6
D2.3	Industrialisation Assessment Report	R	T0+12
D2.6	Test report	R	T0+27
D2.7	Two components shipsets for integration	HW	T0+27
D2.8	Final report (incl. reliability prediction)	R	T0+30
Milestones (when appropriate)			
Ref. No.	Title – Description	Type*	Due Date
D2.4	Preliminary Design Review	D	T0+12

4. Special skills, Capabilities, Certification expected from the Applicant(s)

- Specialist in pneumatics systems & control systems
- Links with, or internal, design & industrial capacity in power electronics
- Mechanical design of actuators
- Knowledge of aeronautical constraints (environments)
- Test & analysis capability to support detailed behavioural characterisation of power components

CfP11 Call text

- Final and Valid Call documents via the [H2020 Funding & Tenders Opportunities Portal](#)

Open access to research data

The Open Research Data Pilot has been extended to cover all Horizon 2020 topics for which the submission is opened on 26 July 2016 or later. Projects funded under this topic will therefore by default provide open access to the research data they generate, except if they decide to opt-out under the conditions described in [Annex L](#) of the H2020 Work Programme. Projects can opt-out at any stage, that is both before and after the grant signature.

Note that the evaluation phase proposals will not be evaluated more favourably because they plan to open or share their data, and will not be penalised for opting out.

Open research data sharing applies to the data needed to validate the results presented in scientific publications. Additionally, projects can choose to make other data available open access and need to describe their approach in a Data Management Plan.

Projects need to create a Data Management Plan (DMP), except if they opt-out of making their research data open access. A first version of the DMP must be provided as an early deliverable within six months of the project and should be updated during the project as appropriate. The Commission already provides guidance documents, including a template for DMPs. See the [Online Manual](#).

Eligibility of costs: costs related to data management and data sharing are eligible for reimbursement during the project duration.

The legal requirements for projects participating in this pilot are in the article 29.3 of the [Model Grant Agreement](#).

8. Additional documents:

[Clean Sky 2 Joint Technical Programme](#)
[Clean Sky 2 JU Financial Rules](#)
[Clean Sky 2 JU Regulation of Establishment](#)
[H2020 Regulation of Establishment](#)
[H2020 Rules for Participation](#)
[H2020 Specific Programme](#)

Additional documents

[Download all documents](#)
(This entry, incl. the additional ones.)

[Full and Formal Description of Topics \(Annex of Work Plan\)](#)

[Template for Part B.I of Proposal](#)

[Template for Part B.II of Proposal](#)

[Template for Part C of Proposal \(Optional\)](#)

[Template for Part D of Proposal](#)

[Guidance for optional Part C of proposals - European Structural and Investment Funds](#)

A template for Part A is not provided here because Part A consists of on-line forms in the submission system.

[Mono-Beneficiary Model Grant Agreement for Partners](#)

[Multi-Beneficiary Model Grant Agreement for Partners](#)

[Horizon 2020 Annotated Model Grant Agreement - Link to document](#)

[Model Implementation Agreement \(2017\)](#)

[ITD / IADP Model Consortium Agreement](#)

The Templates for drafting proposals will also be available in the submission system (SEP).

CS2 Joint Technical Programme (for size reasons this very large doc can be downloaded separately in section 8 under the topic conditions and documents tab)

Clean Sky 2 Joint Undertaking

11th Call for Proposals (CfP11):
List and full description of Topics

Call Text

Important: For a valid application, only the Call documents published on the [H2020 Funding & Tenders Opportunities Portal](#) will be considered.

Note: Q&A Release nr. 1 available via the H2020 Funding & Tenders Opportunities Portal since 14 January !

Applicant's Proposal Submission System (1/2)

- Opening of the Submission System via the H2020 Funding & Tenders Opportunities Portal on (or soon after) Call Launch date
- Main Requirements to access to the submission system and submit your proposal :
 - ECAS ID account
 - European Commission Authentication System
 - Unique Identifier is your e-mail address so be consistent in using it
 - PIC – Participant Identity Code
 - Unique per Legal Entity – Avoid duplicates
 - Temporary versus validated PIC
- Please note:
 - **On-line** Submission of Proposals only [no other method i.e. e-mail, etc.]
 - **Deadline is absolute** (Brussels Time)

Applicant's Proposal Submission System (2/2)

Templates for submitting a valid proposal:

1. Part A [Administrative Section (Coordinator ID, Legal LEAR etc.)]
2. Part B.I [Technical Section: 3 EVAL Criteria and technical and financial content linked to DoA]

NOTE: 70-page limitation for non-thematic topics, 30-page limitation for thematic topics

3. Part B.II [Admin Section: members of consortium (participants, operational capacity, etc.), (potential) ethics and security issues identified by the applicant]
4. Part C [ESIF Complementary Activities – OPTIONAL]
5. Part D [Declaration on the Participation of any Affiliated Entities to Private Members of CS2JU in this proposal and Declaration(s) of Interests]

These templates (in pdf format) are available to potential applicants on the [H2020 Funding & Tenders Opportunities Portal](#) prior the official opening of the Submission System.

Part B.I [Technical Section: EVAL Criteria and technical and financial content linked to DoA]

Research and Innovation Actions (RIA)
Innovation Actions (IA)
Coordination and Support Actions (CSA)

Call for Proposals

Partner(s) Application/Proposal Template
(*Technical Section*)

PART B. I

- November 2018 -

1. Excellence
2. Impact
3. Implementation

PART B SUBMISSION

Your document submitted will be composed of 2 parts:

1. PART B.I

This part introduces the 3 first points which relate to an evaluation criterion for a full proposal. The applicant should complete all these points in order to validate his/her application.

⚠ This part is subject to a **70-page limitation**, including the table templates as presented under the technical section of the present document.

2. PART B.II

This part introduces the 2 last points which relate to the members of consortium (participants, operational capacity, etc.), (potential) ethics and security issues identified by the applicant.

This part is complementary to PART B.I. The applicant should complete all these points in order to validate his/her application.

This part is not subject to any page limitation.

⚠ Please do **not** merge PART B.I and PART B.II as these documents should be submitted separately in the submission system.

Important: Calls for proposals will be managed in compliance with the CS2 Work Plan and the General Annexes of the Horizon 2020 Work Programme

Part B.I [Tech Section: EVAL Criteria for RIA, IA and CSA]

1. Excellence

- 1.1 Objectives
- 1.2 Relation to the CS2JU Work Plan
- 1.3 Concept and approach
- 1.4 Ambition

2. Impact

- 2.1 Expected Impact
- 2.2 Measures to maximise impact
 - 2.2.1 Dissemination and exploitation of results
 - 2.2.2 Communication activities

3. Implementation

- 3.1 Description of work — Work packages, deliverables and milestones
- 3.2 Management Structure and Procedures
 - 3.2.1 Capabilities
 - 3.2.2 Structure and procedures
 - 3.2.3 Risks
- 3.3 Consortium/ Clusters as a whole (where applicable)
- 3.4 Resources to be committed

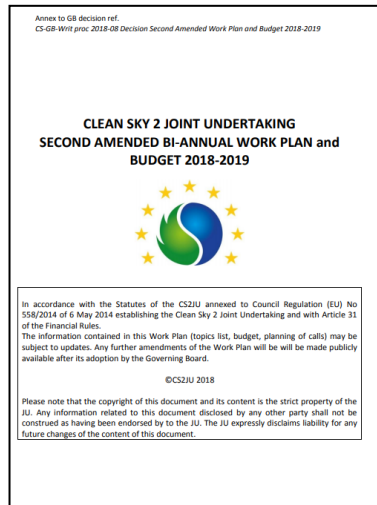

CS2 Call Background documentation

The 3 Levels of CS2 Objectives

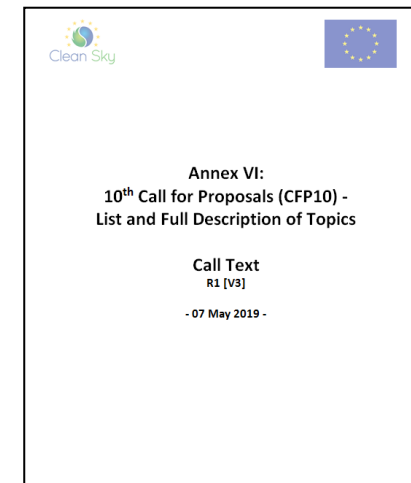

CS2 High Level Objectives

Objectives in the Bi-Annual Work Plan

Objectives in each topic description

The Three Criteria – Elaborated

1. EXCELLENCE

Type of Actions	Aspects for Evaluation	Corresponding Ref. in the proposal template (Part B.I.)
Research and Innovation Actions; Innovation Actions	Clarity and pertinence of the objectives	§1.1
	Soundness of the concept, and credibility of the proposed methodology;	§1.3
	Appropriate consideration of interdisciplinary approaches and, where relevant, use of stakeholder knowledge and gender dimension in research and innovation content	§1.3
	Extent that the proposed work is beyond the state of the art , and demonstrates innovation potential	§1.4

NOTE: For Thematic Topics to determine the ranking, the score for the criterion ‘excellence’ will be given a weight of 1.5.

The Three Criteria – Elaborated

2. IMPACT

Type of Actions	Aspects for Evaluation	Corresponding Ref. in the proposal template (Part B.I.)
Research and Innovation Actions; Innovation Actions	The extent to which the outputs of the project would contribute to each of the expected impacts mentioned in the work programme under the relevant topic;	§2.1
	Any substantial impacts not mentioned in the work programme, that would enhance innovation capacity, create new market opportunities, strengthen competitiveness and growth of companies, address issues related to climate change or the environment, or bring other important benefits for society;	§2.1
	Quality of the proposed measures to: <ul style="list-style-type: none"> • Exploit and disseminate the project results (incl. management of IPR), and to manage research data where relevant. • Communicate the project activities to different target Audiences 	§2.2.1 §2.2.2
	The section on exploitation shall demonstrate a clear commitment to support exploitation of the results brought by their participation in the programme and contribute to European EU competitiveness.	§2.2.1

IMPACT criterion: basic assumptions

- Assume that the proposal is 100% successful
- It is not necessary that impact is immediate but the proposal should be evaluated on the *likelihood* and *significance* of the impact[s] described assuming the project's success.
Are these impacts qualified and/or quantified?
- A proposal does not need to demonstrate impact in all areas (but the merit of the proposal and score should reflect the breadth and scope of impacts expected).

NOTE:

- This criterion may play a « **tie-breaker** » role. Emphasis should be given to the innovation / demonstration orientation of the CS2 programme.
- For Innovation actions to determine the ranking, the score for the criterion 'impact' will be given a weight of 1.5.

How should Innovation orientation be evaluated?

Experts should check that the proposed activities are in line with the type of action implemented by the topic [RIA/IA/CSA].

Under the '*Impact*' criterion:

- All *aspects* should receive attention, see previous slide.
- *The proposers' description of any barriers/obstacles, and any framework conditions (such as regulation and standards), that may determine whether and to what extent the expected impacts will be achieved should also be checked and assessed;*
- *The extent to which risks have been identified as well as potential mitigation of these can be helpful in assessing the merit of the proposal's impact[s].*

The Three Criteria – Elaborated (5/6): 3. IMPLEMENTATION

Type of Actions	Aspects for Evaluation	Corresponding Ref. in the proposal template (Part B.I.)
Research and Innovation Actions; Innovation Actions	Quality and effectiveness of the work plan, including extent to which the resources assigned to work packages are in line with their objectives and deliverables;	§3.1 / §3.4
	Appropriateness of the management structures and procedures, including risk and innovation management;	§3.2
	Match of technical capabilities and skills with the Topic Area and congruent with the programme objectives embodied in the topic;	§3.2
	Ability to work effectively within a supply chain and into an equal or higher tier industrial organization;	§3.2.1
	Complementarity of the participants and extent to which the consortium as whole brings together the necessary expertise;	§3.3
	Appropriateness of the allocation of tasks, ensuring that all participants have a valid role and adequate resources in the project to fulfil that role.	§3.3 / / §3.4

Efficient and well justified application of resources [1]

Requested funding, total eligible costs vs. the indicative topic value:

- ✓ The indicative topic funding value provided in the Call is an **estimate**
- ✓ Applicants must address the scope of the topic in full and submit with their proposal both requested funding **and** the **total eligible costs**
- ✓ Applicants' **resource requirements** for the proposed activity, should be detailed with due justifications and explanations (see Part B.I. - Work Package Effort)
- ✓ The applicant's **total eligible costs** of their proposal should be considered for the evaluation of the *Adequacy & Efficiency of the allocation of resources*
- ✓ The requested funding amount should not be considered as this may depend on the nature of the applicant in accordance with H2020

How to score the Adequacy & Efficiency of the allocation of resources:

- ✓ Should be based on the **total eligible costs** of their proposal
- ✓ No ceiling as such shall apply
- ✓ The proposal **must** contain due justification of any exceedance of the topic's "**Gross Budget**", which should be calculated as below
- ✓ Scores for the Implementation criterion **must** take the level of exceedance *or* potential savings [if any] vs. this Gross Budget and the justification into consideration.

For RIAs and CSAs:

- Merit of the proposal wrt resource requirements stated for the technical content, in light of topic
- Total Eligible Cost to be compared to [100/100 x indicative funding of the topic] as "Topic Gross Budget"

For IAs

- Merit of the proposal wrt resource requirements stated for the technical content, in light of topic
- Total Eligible Cost to be compared to [100/70 x indicative funding of the topic] as "Topic Gross Budget"

A reminder on funding rates [info only]

- ✓ Actions launched as CfP Topics and defined in the Work Plan are labelled “Research & Innovation Actions” and “Coordination and Support Actions”
- ✓ For Research & Innovation Actions and Coordination and Support Actions: all participants will be reimbursed 100% of Total Eligible Costs

Funding = YY% x (Direct Costs ⁽¹⁾ x 125%+ Subcontracting costs)

- Research & Innovation Actions and Coordination and Support Actions: YY = 100% for all participants

⁽¹⁾ Direct Costs include direct personnel costs + other direct costs

Ethics Evaluation in Horizon 2020

- In H2020, all proposals considered for funding will be submitted to an Ethics Review.
- The CS2JU will check, as appropriate, with the help of independent ethics experts - if the proposal complies with ethical principles and relevant legislation.
- All proposals must describe ethical issues raised & how they will be addressed so as to conform to national, European and international regulations.

Ethical Issues raised in Calls for Partners in Clean Sky

Typical examples from previous Calls where applicants raised an ethical issue:

- Importing/exporting for non-EU countries
- Involvement of non-EU countries
- Dual use / Exclusive focus on civil application
- Use of humans in testing (infrequent in Clean Sky)
- Personal data (data protection, Art 39.2 of the GA)
- Misuse

How to get your proposal “ethics-ready” for funding

Each applicant is responsible for:

- **identifying** any potential ethics issues
- **handling** ethical aspects of their proposal
- **detailing** how they plan to address them in sufficient detail already at the proposal stage

Which part of the proposal must be checked by the ethics screener?

- Part A (ethics issues table)
- Part B: Information can be anywhere,
but special attention to the "Ethics section" in part B.II*, where the applicant must provide the ethics self-assessment, a description of the ethics issues identified and the related arrangements.

Ethics Issues Table in Part A

1. HUMAN EMBRYOS/FOETUSES ⁱ		Page
Does your research involve Human Embryonic Stem Cells (hESCs) ?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does your research involve the use of human embryos?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does your research involve the use of human foetal tissues / cells?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
2. HUMANS		Page
Does your research involve human participants?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does your research involve physical interventions on the study participants?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does it involve invasive techniques?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
3. HUMAN CELLS / TISSUES		Page
Does your research involve human cells or tissues? If your research involves human embryos/foetuses, please also complete the section "Human Embryos/Foetuses" [Box 1].	<input type="radio"/> Yes <input checked="" type="radio"/> No	
4. PROTECTION OF PERSONAL DATA ⁱⁱ		Page
Does your research involve personal data collection and/or processing?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does your research involve further processing of previously collected personal data (secondary use)?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
5. ANIMALS ⁱⁱⁱ		Page
Does your research involve animals?	<input type="radio"/> Yes <input checked="" type="radio"/> No	

6. NON-EU COUNTRIES		Page
Does your research involve non-EU countries?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Do you plan to use local resources (e.g. animal and/or human tissue samples, genetic material, live animals, human remains, materials of historical value, endangered fauna or flora samples, etc.)?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Do you plan to import any material - including personal data - from non-EU countries into the EU? If you consider importing data, please also complete the section "Protection of Personal Data" [Box 4].	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Do you plan to export any material - including personal data - from the EU to non-EU countries? If you consider exporting data, please also complete the section "Protection of Personal Data" [Box 4].	<input type="radio"/> Yes <input checked="" type="radio"/> No	
If your research involves low and/or lower middle income countries , are benefits-sharing measures foreseen?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Could the situation in the country put the individuals taking part in the research at risk?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
7. ENVIRONMENT PROTECTION		Page
<small>vi Directive 2001/18/EC - vii Directive 2009/41/EC - viii Regulation EC No 1946/2003 - ix Directive 2008/56/EC x Council Directive 92/43/EEC - xi Council Directive 79/409/EEC - xii Council Regulation EC No 338/97</small>		
Does your research involve the use of elements that may cause harm to the environment, to animals or plants?	<input checked="" type="radio"/> Yes <input type="radio"/> No	36
Does your research deal with endangered fauna and/or flora and/or protected areas?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
Does your research involve the use of elements that may cause harm to humans, including research staff?	<input checked="" type="radio"/> Yes <input type="radio"/> No	37
8. DUAL USE ^{xiii}		Page
Does your research have the potential for military applications?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
9. MISUSE		Page
Does your research have the potential for malevolent/criminal/terrorist abuse?	<input type="radio"/> Yes <input checked="" type="radio"/> No	
10. OTHER ETHICS ISSUES		Page
Are there any other ethics issues that should be taken into consideration? Please specify	<input type="radio"/> Yes <input checked="" type="radio"/> No	

Indicates pages in Part B of the proposal

Ethics section in Part B.II

5.1 Ethics

A **guide regarding the ethic aspects** is available via the EC Participant Portal⁴ and allows the participant to conduct a self-assessment, if necessary.

Are there any ethics issues that should be taken into consideration? If yes, please specify.

(YES/NO)

Note that if you have entered any ethics issues in the ethical issue table in the administrative proposal forms, you must:

- submit an ethics self-assessment, which:
 - describes how the proposal meets the European, national legal and ethical requirements of the country or countries where the tasks raising ethical issues are to be carried out;
 - explains in detail how you intend to address the issues in the ethical issues table, in particular as regard:.
 - research objectives (e.g. study of vulnerable populations, dual use, etc.)
 - research methodology (e.g. protection of any data collected, etc.)
 - the potential impact of the research and the measure and safeguards which will be taken to prevent, monitor and mitigate any ethical issue (e.g. dual use issues, environmental damage, stigmatisation of particular social groups, political or financial retaliation, benefit-sharing, malevolent use, etc.).

⁴ Applicant(s) is (are) invited to conduct an ethical self-assessment of his/her proposal. For this purpose, a guide is available via the following link of the H2020 Funding & Tenders Opportunities Portal: http://ec.europa.eu/research/participants/docs/h2020-funding-guide/cross-cutting-issues/ethics_en.htm

Further information

- Ethics in H2020

http://ec.europa.eu/research/participants/docs/h2020-funding-guide/cross-cutting-issues/ethics_en.htm

- Ethics self-assessment

http://ec.europa.eu/research/participants/data/ref/h2020/grants_manual/hi/ethics/h2020_hi_ethics-self-assess_en.pdf

- Research focusing exclusively on civil applications

http://ec.europa.eu/research/participants/data/ref/h2020/other/hi/guide_research-civil-apps_en.pdf

- Research involving dual use items

http://ec.europa.eu/research/participants/data/ref/h2020/other/hi/guide_research-dual-use_en.pdf

- Potential misuse of research results

http://ec.europa.eu/research/participants/data/ref/h2020/other/hi/guide_research-misuse_en.pdf

Prior to your application submission

Prior any submission of proposal, applicants should check the following elements:

- **Eligibility, admissibility and topic specific conditions** [see the CSJU Work Plan, General Annexes of H2020 Work Programme, Topic descriptions] - Important Note: **Existing Core Partner** interested in Call for Proposals are invited to check their admissibility via the list of Private Members available via the JU website. → Direct link: [here](#)
 - **Evaluation criteria, scoring and threshold** [see the CSJU Work Plan]
 - **Full evaluation procedure** [see Rules for submission, evaluation, selection, award and review procedures for Calls for Proposals]
- **All Call background documentation available** via the [H2020 Funding & Tenders Opportunities Portal](#)

Submission System: Remember

- All Call Documents on [H2020 Funding & Tenders Opportunities Portal](#)
- All information can be downloaded including static versions (i.e. PDF version) of on-line forms for preparatory information gathering
- Online forms and uploaded documents
- Respect size and page limits as indicated. Do not use tiny fonts or links to unofficial annexes
- Validate formats as you progress – not at the last minute !
- Can save / submit and revise many times

Any questions?

Info-Call-CFP-2020-01@cleansky.eu

Last deadline to submit your questions:
13th March 2020, 17:00 (Brussels time)

Innovation Takes Off
